

## Dual SEM-0

This controller has been developed for twin Separately Excited Motors (SEM) application with traction motor power from 500W to 2kW, each. Application field: small tractors and aerial platforms. General features: MOSFET technology, microprocessor logic, faults memory, digital programming via console, regenerative braking.

### Technical details

Supply voltage: 24 ÷ 36V

Maximum current: 200+200A

High Frequency:16 kHz

Electronic differential

Internal hour meter

Internal Battery Discharge Indicator (BDI)

Serial link

Protection IP44

Dimensions: 245 x 225 x 128 mm
